SURFBOARD

2024

CENTZ

Mintautas Grigas / @mintukass

"CENITZ"

"Cenitz" is a fish-type surfboard model characterized by its reduced length and increased width and thickness compared to a conventional board. With a less pronounced curvature on the bottom (flatter rocker) and equipped with a two-fin system, it offers a perfect balance between maneuverability and buoyancy. It's the ideal companion for summer, suitable for days with less powerful waves but also valid for larger wave conditions.

The versatility of "Cenitz" makes it a very reliable option compared to a shortboard in various situations, allowing you to enjoy a comfortable and exciting surfing experience.

HENDAYA

Quim Valls / @wet.penguins

"HENDAYA"

"Hendaya" is a perfect fusion between the style of a mid-length and the agility of a shortboard. This board represents a harmonious balance between enjoyment and sporting performance. Designed to offer versatility in almost any condition.

"Hendaya" is the ideal choice for those looking to ensure a fun surfing session regardless of the sea conditions.

This board gives you the opportunity to experience the best of both worlds, allowing you to navigate with confidence and style in any scenario.

LA BOUGIE

Mintautas Grigas / @mintukass

"LA BOUGIE"

"La Bougie" is an exceptionally stylish and exciting surfboard designed to provide fun and performance to surfers of different skill levels. Therefore, if you're looking for a more classic and relaxed surfing experience, you may want to consider the advantages of longboards.

The additional length provides exceptional stability, resulting in a feeling of perfect control and security for beginners and those who want to enjoy more relaxed surfing sessions.

This versatility makes longboards ideal for surfers looking to explore new techniques as well as those who simply want to enjoy the pleasure of gliding on waves.

MYLADI

Alvaro Montero/ @alvaromonterophoto

"MYLADI"

The "Myladi" board combines the efficiency of Fish performance design with innovative features. Its winged rail and swallowtail offer a unique combination that will provide unparalleled versatility and maneuverability.

This design is inspired by both the twin fins of the 1970s and our own creation, the Twin Cenitz. By incorporating the winged rail, greater stability is achieved without sacrificing maneuverability. This allows for a versatile and exciting surfing experience, perfect for those seeking a new level of performance on the waves. With this model, we are bringing back tradition and fusing it with the innovation and agility of a modern board to provide you with an exceptional option in every aspect.

Float, turn, grip... enjoy it!

LES CAVALIERS

Iur Gi / @iurgiurgi

"LES CAVALIERS"

"Les Cavaliers" is a high-performance surfboard (shortboard) that will delight experienced surfers. It is a highly versatile surfboard designed to adapt to a wide variety of waves. With its triple-fin setup, this board offers an exceptional level of maneuverability, grip, and control. Additionally, its tail is available in various styles, adding even more performance possibilities in different situations.

This board is particularly suitable for those looking to experience radical sensations, extreme turns, and complex maneuvers.

MIKELENA

Alvaro Montero / @alvaromonterophoto

"MIKELENA"

"Mikelena" is one of our most special creations. A surfboard model designed to provide a satisfying experience for intermediate surfers seeking the excitement of a shortboard. Designed with a performance focus but adapted to the level of an intermediate surfer, this board offers the opportunity to experience the thrill of a shortboard without compromising on paddling and stability.

It provides an excellent combination of maneuverability and enjoyment. Its meticulously balanced and studied design allows for efficient paddling, facilitating access to waves and capturing the best opportunities.

The well-distributed volume ensures that the board is responsive and agile in the water, allowing for confident turns and maneuvers. With efficient paddling and balanced distribution, this board is an excellent choice for those looking to improve their skills and enjoy a higher level of performance in the water.

The ultimate board to truly step up to the next level.

	SWALLOW		POLISH			

MUNDAKA

Alvaro Montero/ @alvaromonterophoto

"STEP UP: MUNDAKA"

"Step Up: Mundaka" is a board designed to tackle more powerful waves. While retaining the agile outline of a shortboard, its dimensions, especially in length and thickness, are slightly increased. This adaptation responds to the need to improve paddling and stability in more challenging conditions.

With a round or pin tail, this board ensures optimal grip in the water, making it the ideal choice for surfing waves more powerful than usual. The "Step Up: Mundaka" represents the perfect combination of performance and durability, allowing you to conquer the most demanding waves with confidence and style.

CUSTOMIZATION

RAIL YPE	HIGH	GLASS		TAILPATCH (CARBON)	NUMBER OF FINS

LAFITENIA

Mintautas Grigas / @mintukass

“LAFITENIA”

"Lafitenia" offers an excellent platform for learning and developing skills in the water. It stands out for its ability to facilitate paddling and wave-catching. This board is comparable in stability to a longboard, making it an optimal choice for those taking their first steps in the world of surfing.

The "mini malibu" model is an exceptional alternative for those who want to learn to surf effectively and enjoy the thrill of riding waves from the start. This board combines the advantages of a longboard in terms of flotation and stability with the agility and maneuverability of a shorter board. It is an ideal choice for those seeking a smooth transition from a longboard to smaller, more challenging boards.

RIDER PRO

Iur Gi / @iurgiurgi

“RIDER PRO”

PRO RIDER

The “RIDER PRO” model is the ultimate expression of high performance. Building upon the foundation of the Rider model, we fine-tuned the mechanical parameters to achieve greater agility in edge transition and increased explosiveness in maneuver execution. More aggressive concaves and a narrower tail make this board the ultimate competition tool.
